## LK Balanced Fund

---

Fellow Shareholders,

The last 12 months was nothing if not exciting. The global pandemic gave way to general reopening and market growth in the second half of 2021, to be followed by a Covid re-emergent lockdown in China and a war in Ukraine in the first half of 2022. Easy monetary policy gave way to rising rates leading to a general “risk off” period so far in 2022.

In this environment, the Fund declined 7.50%—outpacing the Lipper Balanced Fund Index which was down 11.73%—for the twelve months ending June 30, 2022. In a period of economic turbulence, rising rates and higher inflation, our larger more stable companies provided positive returns. In addition, rising oil prices led to significant recovery for our energy sector holdings. Leading individual contributors to the Fund’s performance were Pfizer, Chevron and Hershey which collectively added about 2.3%. The largest detractors were Walt Disney, Warner Brothers Discovery and Boeing which subtracted about 3.1% from Fund performance.

U.S. GDP contracted during the last two quarters. Normally a sign of recession, but Washington politicians and Wall Street prognosticators are busy redefining “recession”. Whether we are in a recession or not, the contraction has not yet resulted in job losses, spending cuts, or earnings declines. The persistent concern is inflation and whether rising rates will lead to a full-blown cycle of layoffs and snowball into a real recession in the coming year.

Economic momentum is likely to slow in the second half of 2022 as inflation acts as a regressive tax on consumers. Although there are huge inflation-effect differences across income deciles and region, the general affect is unlikely to be helpful. Inflation may be close to a peak but is likely to remain elevated due to supply bottlenecks, high commodity prices and upbeat US wage growth. We would not be surprised to see higher inflation than the Federal Reserve is targeting (2%) throughout the remainder of 2022 and 2023.

The first half decline in the equity markets have caused valuations to come back down into historically more normal ranges. Not yet cheap, but certainly not as high as they had been, and likely more in line with reasonable given the still low absolute levels of interest rates. We continue to favor stocks over bonds for long-term performance. If corporate earnings manage to hold up as well as they have so far in 2022, the surprise in a year may be how quickly the stock market snapped back from the lows reached this past June. On the other hand, if earnings disappoint, it could be a volatile next 12 months. As always, we spend the majority of our time searching for individual companies whose outlook is not properly reflected in their stock price. Good companies will adapt and grow, and if purchased at reasonable prices, can provided attractive risk-adjusted returns going forward.

Thank you for your continued trust and confidence.

Sincerely,

Thomas J. Sudyka, Jr., CFA®

Bruce H. Van Kooten, CFA®

**Past performance does not guarantee future results.**

Fund holdings and allocations are subject to change at any time and should not be considered a recommendation to buy or sell any security. Please see the schedule of investments for a complete list of fund holdings.

Earnings growth is not representative of the Fund's future performance.

**Mutual fund investing involves risk. Principal loss is possible. Securities of mid-cap and small-cap companies may be more volatile and less liquid than the securities of large-cap companies. Foreign companies involve risks not generally associated with investment in the securities of U.S. companies, including risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. The Fund's investments in debt securities will be subject to credit risk, interest rate risk, prepayment risk and duration risk. Credit risk is the risk that an issuer will not make timely payments of principal and interest. Interest rate risk is the risk that the value of debt securities fluctuates with changes in interest rates (e.g. increases in interest rates result in a decrease in value of debt securities). Pre-payment risk is the risk that the principal on debt securities will be paid off prior to maturity causing the Fund to invest in debt securities with lower interest rates. Investments in below investment grade debt securities and unrated securities of similar credit quality as determined by the Adviser (commonly known as "junk bonds") involve a greater risk of default and are subject to greater levels of credit and liquidity risk. The Fund may be exposed to liquidity risk when trading volume, lack of a market maker, or legal restrictions impair the Fund's ability to sell particular securities at an advantageous price or in a timely manner.**

The **Lipper Balanced Funds Index** is an equally weighted index of the 30 largest U.S. Balanced Funds. One can not directly invest in an index.

Gross domestic product (**GDP**) is the total monetary or market value of all the finished goods and services produced within a country's borders in a specific time period. As a broad measure of overall domestic production, it functions as a comprehensive scorecard of a given country's economic health.

### VALUE OF \$50,000 INVESTMENT (UNAUDITED)

*The chart assumes an initial investment of \$50,000. Performance reflects waivers of fee and operating expenses in effect. In the absence of such waivers, total return would be reduced. Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed may be worth more or less than their original cost. Performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-855-698-1378. Performance assumes the reinvestment of capital gains and income distributions. The performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.*

The following is expense information for the LK Balanced Fund as disclosed in the Fund's most recent prospectus dated October 28, 2021:

Gross Expenses: 1.50%; Net Expenses: 1.01%. Lawson Kroeker Investment Management, Inc. (the "Adviser") has contractually agreed to waive its management fees and pay Fund expenses in order to ensure that Total Annual Fund Operating Expenses (excluding acquired fund fees and expenses, leverage/borrowing interest, interest expense, dividends paid on short sales, taxes, brokerage commissions and extraordinary expenses) do not exceed 1.00% of the Fund's average daily net assets. Fees waived and expenses paid by the Adviser may be recouped by the Adviser for a period of 36 months following the month during which such fee waiver and expense payment was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee waiver and expense payment occurred and the expense limit in effect at the time of recoupment. The Operating Expenses Limitation Agreement is indefinite in term and cannot be terminated through at least October 28, 2022. Thereafter, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board of Trustees (the "Board") or the Adviser.

### EXPENSE EXAMPLE (UNAUDITED) JUNE 30, 2022

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of Fund shares, and (2) ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (January 1, 2022 – June 30, 2022).

#### ACTUAL EXPENSES

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

#### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

*Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if transactional costs were included, your costs may have been higher.*

	<u>Beginning Account Value (1/1/2022)</u>	<u>Ending Account Value (6/30/2022)</u>	<u>Expenses Paid During Period<sup>(1)</sup> (1/1/2022 to 6/30/2022)</u>
LK Balanced Fund Actual <sup>(2)</sup>	\$1,000.00	\$ 883.40	\$4.67
LK Balanced Fund Hypothetical (5% return before expenses)	1,000.00	1,019.84	5.01

(1) Expenses are equal to the Fund’s annualized expense ratio for the most recent six-month period of 1.00%, multiplied by the average account value over the period, multiplied by 181/365 to reflect the one-half year period.

(2) Based on the actual return for the six-month period ended June 30, 2022 of -11.66%.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2022

### 1. ORGANIZATION

Managed Portfolio Series (the “Trust”) was organized as a Delaware statutory trust on January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The LK Balanced Fund (the “Fund”) is a diversified series with its own investment objectives and policies within the Trust. The investment objective of the Fund is long-term capital appreciation and current income. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. Prior to July 1, 2012, the Fund’s investment adviser managed a limited partnership with an investment objective and investment policies that were, in all material respects, equivalent to those of the Fund. The limited partnership, which inceptioned on December 31, 1986, converted into, and the Fund commenced operations in the Trust on, July 1, 2012. The Fund currently offers one class, the Institutional Class. The Fund may issue an unlimited number of shares of beneficial interest, with no par value.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

**Security Valuation** – All investments in securities are recorded at their estimated fair value, as described in Note 3.

**Federal Income Taxes** – The Fund complies with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as a regulated investment company and distributes substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Fund. Therefore, no federal income tax provision is required. As of and during the year ended June 30, 2022, the Fund did not have any tax positions that did not meet the “more-likely-than-not” threshold of being sustained by the applicable tax authority. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. As of and during the year ended June 30, 2022, the Fund did not have liabilities for any unrecognized tax benefits. The Fund is not subject to examination by U.S. tax authorities for tax years prior to the year ended June 30, 2019.

**Security Transactions, Income, and Distributions** – The Fund follows industry practice and records security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method.

The Fund distributes substantially all net investment income, if any, and net realized capital gains, if any, annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset values per share of the Fund. For the year ended June 30, 2022, there were no reclassifications needed.

### NOTES TO THE FINANCIAL STATEMENTS – CONTINUED JUNE 30, 2022

**Allocation of Expenses** – Expenses associated with a specific fund in the Trust are charged to that fund. Common Trust expenses are typically allocated evenly between funds of the Trust, or by other equitable means.

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### 3. SECURITIES VALUATION

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion of changes in valuation techniques and related inputs during the period and expanded disclosure of valuation Levels for major security types. These inputs are summarized in the three broad Levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund’s major categories of assets and liabilities measured at fair value on a recurring basis. The Fund’s investments are carried at fair value.

**Short-Term Investments** – Investments in other mutual funds, including money market funds, are valued at their net asset value per share. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

**Equity Securities** – Equity securities, including common stocks, preferred stocks, exchange traded funds (“ETF”s) and real estate investment trusts (“REIT”s), that are primarily traded on a national securities exchange are valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available are valued using the Nasdaq Official Closing Price (“NOCP”). If the NOCP is not available, such securities are valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

**Fixed Income Securities** – Fixed income securities, including asset-backed, corporate, mortgage-backed, municipal bonds, and U.S. government & agency securities, are valued at fair value on the basis of valuations furnished by an independent pricing service which utilizes both dealer-supplied valuations and formula-based techniques. The pricing service may consider recently executed transactions in securities of the issuer or

comparable issuers, market price quotations (where observable), bond spreads, and fundamental data relating to the issuer. Fixed income securities are categorized in Level 2 of the fair value hierarchy.

Securities for which market quotations are not readily available, or if the closing price does not represent fair value, are valued following procedures approved by the Board of Trustees (the “Board”). These procedures consider many factors, including the type of security, size of holding, trading volume and news events. There can be no assurance that the Fund could obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its net asset values per share. The Board has established a Valuation Committee to administer, implement, and oversee the fair valuation process, and to make fair value decisions when necessary. The Board regularly reviews reports of the Valuation Committee that describe any fair value determinations and methods.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund’s securities as of June 30, 2022:

	Level 1	Level 2	Level 3	Total
Common Stocks	\$19,988,535	\$ —	\$ —	\$19,988,535
Corporate Bonds	—	5,992,179	—	5,992,179
United States Government Bonds	—	998,399	—	998,399

<b>Total Investments in Securities</b>	<b>\$20,206,443</b>	<b>\$7,512,666</b>	<b>\$ —</b>	<b>\$27,719,109</b>

Refer to the Schedule of Investments for further information on the classification of investments.

#### 4. INVESTMENT ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Trust has an agreement with Lawson Kroeker Investment Management, Inc. (the “Adviser”) to furnish investment advisory services to the Fund. Pursuant to an Investment Advisory Agreement between the Trust and the Adviser, the Adviser is entitled to receive an annual advisory fee equal to 0.75% of the Fund’s average daily net assets on a monthly basis.

The Fund’s Adviser has contractually agreed to waive its management fees and pay Fund expenses, in order to ensure that Total Annual Operating Expenses (excluding acquired fund fees and expenses, leverage/borrowing interest, interest expense, taxes, brokerage commissions and extraordinary expenses) do not exceed 1.00% of the Fund’s average daily net assets. Fees waived and expenses paid by the Adviser may be recouped by the Adviser for a period of thirty-six months following the date on which such fee waiver and expense payment was made if such recoupment can be achieved without exceeding the expense limit in effect at the time the fee waiver and expense payment occurred and the expense limit in effect at the time of recoupment. The Operating Expenses Limitation Agreement is indefinite in term and cannot be terminated within a year after the effective date of the Fund’s Prospectus. Thereafter, the agreement may be terminated at any time upon 60 days’ written notice by the Trust’s Board or the Adviser, with the consent of the Board. Waived fees and reimbursed expenses subject to potential recovery by month of expiration are as follows:

Expiration	Amount
July 2022 – June 2023	\$120,701
July 2023 – June 2024	\$133,920
July 2024 – June 2025	\$115,812

U.S. Bancorp Fund Services, LLC (the “Administrator”), doing business as U.S. Bank Global Fund Services, acts as the Fund’s Administrator, Transfer Agent, and Fund Accountant. U.S. Bank N.A. (the “Custodian”) serves as the Custodian to the Fund. The Custodian is an affiliate of the Administrator. The Administrator performs various administrative and accounting services for the Fund. The Administrator prepares various federal and state regulatory filings, reports and returns for the Fund; prepares reports and materials to be supplied to the Trustees; monitors the activities of the Fund’s Custodian; coordinates the payment of the Fund’s expenses and reviews the Fund’s expense accruals. The officers of the Trust, including the Chief Compliance Officer, are employees of the Administrator. As compensation for its services, the Administrator is entitled to a monthly fee at an annual rate based upon the average daily net assets of the Fund, subject to annual minimums. Fees incurred by the Fund for administration and accounting, transfer agency, custody and chief compliance officer services for the year ended June 30, 2022, are disclosed in the Statement of Operations.

### NOTES TO THE FINANCIAL STATEMENTS – CONTINUED JUNE 30, 2022

As of June 30, 2022, the Fund did not have any capital loss carryovers. A regulated investment company may elect for any taxable year to treat any portion of any qualified late year loss as arising on the first day of the next taxable year. Qualified late year losses are certain capital, and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31 and December 31, respectively. For the taxable year ended June 30, 2022, the Fund did not defer, on a tax basis, any qualified late year losses.

The tax character of distributions paid during the year ended June 30, 2022, were as follows:

<b>Ordinary Income*</b>	<b>Long-Term Capital Gains</b>	<b>Total</b>
\$309,526	\$2,859,654	\$3,169,180

The tax character of distributions paid during the year ended June 30, 2021, were as follows:

<b>Ordinary Income*</b>	<b>Long-Term Capital Gains</b>	<b>Total</b>
\$259,600	\$1,268,848	\$1,528,448

\* For federal income tax purposes, distributions of short-term capital gains are treated as ordinary income.

#### 8. REGULATORY UPDATE

In December 2020, the SEC adopted a new rule providing a framework for fund valuation practices ("Rule 2a-5"). Rule 2a-5 establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Rule 2a-5 will permit fund boards to designate certain parties to perform fair value determinations, subject to board oversight and certain other conditions. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must fair value a security. In connection with Rule 2a-5, the SEC also adopted related recordkeeping requirements and is rescinding previously issued guidance, including with respect to the role of a board in determining fair value and the accounting and auditing of fund investments. The Fund will be required to comply with the rules by September 8, 2022. Management is currently assessing the potential impact of the new rules on the Fund's financial statements.

#### 9. GENERAL RISK

The global outbreak of COVID-19 has disrupted economic markets and the prolonged economic impact is uncertain. The operational and financial performance of the issuers of securities in which the Fund invests depends on future developments, including the duration and spread of the outbreak, and such uncertainty may in turn impact the value of the Fund's investments.

On February 24, 2022, Russia commenced a military attack on Ukraine. The outbreak of hostilities between the two countries could result in more widespread conflict and could have a severe adverse effect on the region and the markets. In addition, sanctions imposed on Russia by the United States and other countries, and any sanctions imposed in the future could have a significant adverse impact on the Russian economy and related markets. The price and liquidity of investments may fluctuate widely as a result of the conflict and related events. How long such conflict and related events will last and whether it will escalate further cannot be predicted, nor its effect on the Fund.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of LK Balanced Fund and  
Board of Trustees of Managed Portfolio Series

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of LK Balanced Fund (the “Fund”), a series of Managed Portfolio Series, as of June 30, 2022, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of June 30, 2022, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2022, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2012.

JUNE 30, 2022

#### **APPROVAL OF INVESTMENT ADVISORY AGREEMENT – Lawson Kroeker Investment Management, Inc.**

At the regular meeting of the Board of Trustees of Managed Portfolio Series (“Trust”) on February 22-23, 2022, the Trust’s Board of Trustees (“Board”), each of whom were present virtually via video conference, including all of the Trustees who are not “interested persons” of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended, (“Independent Trustees”) considered and approved the continuation of the Investment Advisory Agreement between the Trust and Lawson Kroeker Investment Management, Inc. (“LK” or the “Adviser”) regarding the LK Balanced Fund (the “Fund”) (the “Investment Advisory Agreement”) for another annual term.

Prior to the meeting and at a meeting held on January 11, 2022, the Trustees received and considered information from LK and the Trust’s administrator designed to provide the Trustees with the information necessary to evaluate the continuance of the Investment Advisory Agreement (“Support Materials”). Before voting to approve the continuance of the Investment Advisory Agreement, the Trustees reviewed the Support Materials with Trust management and with counsel to the Independent Trustees, and received a memorandum from such counsel discussing the legal standards for the Trustees’ consideration of the renewal of the Investment Advisory Agreement. This information, together with the information provided to the Board throughout the course of the year, formed the primary (but not exclusive) basis for the Board’s determinations.

In determining whether to continue the Investment Advisory Agreement, the Trustees considered all factors they believed relevant, including the following with respect to the Fund: (1) the nature, extent, and quality of the services provided by LK with respect to the Fund; (2) the Fund’s historical performance and the performance of other investment accounts managed by LK; (3) the costs of the services provided by LK and the profits realized by LK from services rendered to the Fund; (4) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (5) the extent to which economies of scale may be realized as the Fund grows, and whether the advisory fee for the Fund reflects such economies of scale for the Fund’s benefit; and (6) other benefits to LK resulting from its relationship with the Fund. In their deliberations, the Trustees weighed to varying degrees the importance of the information provided to them, and did not identify any particular information that was all-important or controlling.

Based upon the information provided to the Board throughout the course of the year, including at a telephonic presentation by a representative of LK, and the Support Materials, the Board concluded that the overall arrangements between the Trust and LK set forth in the Investment Advisory Agreement continue to be fair and reasonable in light of the services that LK performs, the investment advisory fees that the Fund pays and such other matters as the Trustees considered relevant in the exercise of their reasonable business judgment. The material factors and conclusions that formed the basis of the Trustees’ determination to approve the continuation of the Investment Advisory Agreement are summarized below.

**Nature, Extent and Quality of Services Provided.** The Trustees considered the scope of services that LK provides under the Investment Advisory Agreement, noting that such services include, but are not limited to, the following: (1) investing the Fund’s assets consistent with the Fund’s investment objective and investment policies; (2) determining the portfolio securities to be purchased, sold or otherwise disposed of and the timing of such transactions; (3) voting all proxies, if any, with respect to the Fund’s portfolio securities; (4) maintaining the required books and records for transactions that LK effects on behalf of the Fund; (5) selecting broker-dealers to execute orders on behalf of the Fund; and (6) monitoring and maintaining the Fund’s compliance with policies and procedures of the Trust and with applicable securities laws. The Trustees noted the investment philosophy of

the portfolio managers and their significant investment and portfolio management experience. The Trustees also considered LK's capitalization and its assets under management. In that regard, the Trustees determined that LK had sufficient resources to support the management of the Fund. The Trustees concluded that they were satisfied with the nature, extent and quality of services provided by LK to the Fund pursuant to the Investment Advisory Agreement.

**Fund Historical Performance and the Overall Performance of LK.** In assessing the quality of the portfolio management delivered by LK, the Trustees reviewed the short-term and long-term performance of the Fund on both an absolute basis and in comparison to appropriate benchmark indices, the Fund's peer funds according to Morningstar classifications, and as compiled by Barrington Partners (the "Morningstar BP Cohort"), and the composite of separate accounts that LK manages utilizing a similar investment strategy as that of the Fund. When reviewing the Fund's performance against its Morningstar BP Cohort, the Trustees took into account that the investment objective and strategies of the Fund, as well as its level of risk tolerance, may differ significantly from funds in the peer group. The Trustees noted that the Fund outperformed its Morningstar BP Cohort average over the one-year, three-year and five-year periods ended September 30, 2021. The Trustees also noted that the Fund underperformed its benchmark S&P 500 Index across all periods but outperformed its secondary benchmark over the five-year and ten-year periods ended October 31, 2021. The Trustees also considered that the Fund has provided shareholders with positive absolute returns over the year-to-date period ended September 30, 2021 as well as the three-year, five-year, ten-year and since inception periods ended December 31, 2020. The Trustees then observed that the Fund's performance was generally consistent with the performance of a composite of similar accounts managed by LK over all relevant time periods, but that in certain periods the Fund's performance diverged from the composite due to variations in asset holdings or tax status of the composite accounts.

**Cost of Advisory Services and Profitability.** The Trustees considered the annual advisory fee that the Fund pays to LK under the Investment Advisory Agreement, as well as LK's profitability from services that LK rendered to the Fund during the 12-month period ended September 30, 2021. The Trustees also considered the effect of an expense limitation agreement on LK's compensation and that LK has contractually agreed to reduce its advisory fees and, if necessary, reimburse the Fund for operating expenses, as specified in the Fund's prospectus. In that regard, the Trustees observed that LK had waived a portion of its management fee during the one-year period ended September 30, 2021. The Trustees also noted that while the management fees LK charges to separately managed accounts with similar investment strategies and asset levels as those of the Fund may be above or below the advisory fee for the Fund, LK has additional responsibilities with respect to the Fund which include more frequent trading and cash management stemming from the Fund's daily subscriptions and redemptions, additional compliance and shareholder servicing obligations, and the preparation of Board and shareholder materials, that justify a higher fee. The Trustees concluded that LK's service relationship with the Fund has not been profitable.

**Comparative Fee and Expense Data.** The Trustees considered a comparative analysis of contractual expenses borne by the Fund and those of funds within the same Morningstar BP Cohort. The Trustees noted the Fund's management fee was higher than the Morningstar BP Cohort average. They also considered that the total expenses of the Fund (after waivers and expense reimbursements) were below than the Morningstar BP Cohort average, and that the average net assets of funds comprising the peer group were significantly higher than the assets of the Fund. The Trustees also took into account that the advisory fees and total expenses (after waivers and expense reimbursements) borne by the Fund were within the range of that borne by funds in the Morningstar BP. While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that LK's advisory fee continues to be reasonable.

## LK Balanced Fund

---

### ADDITIONAL INFORMATION (UNAUDITED) – CONTINUED JUNE 30, 2022

**Economies of Scale.** The Trustees considered whether the Fund may benefit from any economies of scale, noting that the investment advisory fee for the Fund does not contain breakpoints. The Trustees noted that given current asset levels, it was not necessary to consider the implementation of fee breakpoints at the present time, but agreed to revisit the issue in the future as circumstances change and asset levels increase. The Trustees also considered that LK had agreed to consider breakpoints in the future in response to asset growth.

**Other Benefits.** The Trustees considered the direct and indirect benefits that could be realized by the Adviser from its relationship with the Fund. The Trustees considered the extent to which LK utilizes soft dollar arrangements with respect to portfolio transactions. The Trustees also took into account that LK does not use affiliated brokers to execute the Fund's portfolio transactions. The Trustees considered that LK may receive some form of reputational benefit from services rendered to the Fund, but that any such benefits are difficult to accurately quantify. The Trustees concluded that LK does not receive additional material benefits from its relationship with the Fund.

#### STATEMENT REGARDING THE FUND'S LIQUIDITY RISK MANAGEMENT PROGRAM

Pursuant to Rule 22e-4 under the Investment Company Act of 1940, Managed Portfolio Series (the “Trust”), on behalf of the LK Balanced Fund (the “Fund”), has adopted and implemented a written liquidity risk management program (the “Program”) that includes policies and procedures reasonably designed to comply with the requirements of Rule 22e-4, including: (i) assessment, management and periodic review of liquidity risk; (ii) classification of portfolio holdings; (iii) establishment of a highly liquid investment minimum (“HLIM”), as applicable; (iv) limitation on illiquid investments; and (v) redemptions in-kind. The Trust’s Board of Trustees (the “Board”) has approved the designation of Lawson Kroeker Investment Management Inc. (“LK”) as the administrator of the Program (the “Program Administrator”). Personnel of LK or its affiliates conduct the day-to-day operation of the Program pursuant to policies and procedures administered by the Program Administrator.

In accordance with Rule 22e-4, the Board reviewed a report prepared by the Program Administrator (the “Report”) regarding the operation of the Program and its adequacy and effectiveness of implementation for the period January 1, 2021, through December 31, 2021 (the “Reporting Period”). No significant liquidity events impacting the Fund during the Reporting Period or material changes to the Program were noted in the Report.

Under the Program, LK manages and periodically reviews the Fund’s liquidity risk, including consideration of applicable factors specified in Rule 22e-4 and the Program. Liquidity risk is defined as the risk that the Fund could not meet shareholder redemption requests without significant dilution of remaining shareholders’ interests in the Fund. In general, this risk was managed during the Reporting Period by monitoring the degree of liquidity of the Fund’s investments, limiting the amount of the Fund’s illiquid investments, and utilizing various risk management tools and facilities available to the Fund for meeting shareholder redemptions, among other means. In the Report, LK provided its assessment that, based on the information considered in its review, the Program remains reasonably designed to manage the Fund’s liquidity risk and the Fund’s investment strategy remains appropriate for an open-end fund.

Pursuant to the Program, the Program Administrator oversaw the classification of each of the Fund’s portfolio investments as highly liquid, moderately liquid, less liquid or illiquid during the Reporting Period, including in connection with recording investment classifications on Form N-PORT. LK’s process of determining the degree of liquidity of the Fund’s investments is supported by one or more third-party liquidity assessment vendors.

The Fund qualified as a “primarily highly liquid fund” as defined in the Program during the Reporting Period. Accordingly, the Fund was not required to establish a HLIM or comply with the related Program provisions during the Reporting Period.

During the Reporting Period, the Fund’s investments were monitored for compliance with the 15% limitation on illiquid investments pursuant to the Program and in accordance with Rule 22e-4.

The Report noted that the Fund did not effect redemptions in-kind during the Reporting Period pursuant to the Program. The Report concluded: (i) the Program was implemented and operated effectively to achieve the goal of assessing and managing the Fund’s liquidity risk during the Reporting Period; and (ii) the Fund was able to meet requests for redemption without significant dilution of remaining investors’ interests in the Fund during the Reporting Period.
